This Patent Services Menu is provided to help current and prospective clients estimate costs for commonly requested work, including government fees, my professional fees, and foreign associate fees. This Menu does not include every possible cost that may arise. Additional costs may arise, particularly for complex matters. I reserve the right to adjust my professional fees according to the circumstances, but will not charge more without discussing it with you first. Additional surcharges will be applied to any rush requests where your instructions are received immediately prior to a deadline. Like my own, government fees also may change at any time, making it possible for the below-listed fees to be inaccurate on the date which a fee is due.
